

GradNext Partner API Documentation

GradNext Partner API Documentation

Overview

The Partner API allows authorized partner institutes to access mentor availability and create bookings on behalf of their candidates. This enables seamless integration with your existing booking systems.

Authentication

All API requests must include your API key in the request header.

Header Format

X-Partner-API-Key: pk_live_XXXXXXXXXXXXXXXXXXXXXXXXXXXX

Example (cURL)

```
curl -H "X-Partner-API-Key: pk_live_your_api_key_here" \
https://app.gradnext.co/api/partner/mentors
```

Example (JavaScript/Fetch)

```
const response = await fetch('https://app.gradnext.co/api/partner/mentors', {
  headers: {
    'X-Partner-API-Key': 'pk_live_your_api_key_here'
  }
});
```

Example (Python/Requests)

```
import requests

headers = {
    'X-Partner-API-Key': 'pk_live_your_api_key_here'
}

response = requests.get(
```

```
'https://app.gradnext.co/api/partner/mentors',  
headers=headers  
)
```

Base URL

Production:

`https://app.gradnext.co/api/partner`

Note: Make sure to use the production URL when integrating with your systems.

Endpoints

1. Health Check

Check if the API is operational.

Request

GET `/api/partner/health`

Response

```
{  
  "status": "healthy",  
  "api": "Partner API",  
  "version": "1.0.0"  
}
```

2. List Mentors

Get all mentors assigned to your partner account.

Request

GET `/api/partner/mentors`

Response

```
{  
  "mentors": [  
    {  
      "id": "mentor-123",  
      "name": "John Smith",  
      "title": "Senior Consultant",  
      "company": "McKinsey",  
    },  
  ],  
}
```

Request

Parameters	Parameter	Type	Description	mentor id
------------	-----------	------	-------------	-----------

Response

Request

GET /api/partner/mentors/{mentor_id}/availability?start_date=YYYY-MM-

DD&end_date=YYYY-MM-DD

Parameters	Parameter	Type	Required	Description
	mentor_id	string	Yes	The unique mentor ID
	start_date	string	Yes	Start of date range (YYYY-MM-DD)
	end_date	string	Yes	End of date range (YYYY-MM-DD)

Notes - Maximum date range: 30 days - Availability is returned in IST (Indian Standard Time) - Slots are in 30-minute intervals - Already booked slots, blocked days, and Google Calendar conflicts are automatically excluded

Example Request

GET /api/partner/mentors/mentor-123/availability?start_date=2026-03-15&end_date=2026-03-21

Response

```
{
  "mentor_id": "mentor-123",
  "start_date": "2026-03-15",
  "end_date": "2026-03-21",
  "availability": [
    {
      "date": "2026-03-16",
      "day": "Monday",
      "slots": ["09:00", "09:30", "10:00", "10:30", "14:00", "14:30", "15:00"],
      "booked_slots": ["11:00", "11:30"]
    },
    {
      "date": "2026-03-17",
      "day": "Tuesday",
      "slots": ["10:00", "10:30", "11:00", "11:30", "15:00", "15:30"],
      "booked_slots": []
    }
  ]
}
```

5. Create Booking

Book a session with a mentor for a candidate.

Request

POST /api/partner/bookings
Content-Type: application/json

Request Body

```
{
```

```

"mentor_id": "mentor-123",
"date": "2026-03-16",
"time_slot": "10:00",
"candidate_name": "Jane Doe",
"candidate_email": "jane.doe@example.com",
"session_type": "case_interview",
"duration_minutes": 45,
"notes": "Optional notes about the session"
}

```

Parameters	Field	Type	Required	Description
	mentor_id	string	Yes	The mentor's unique ID
	date	string	Yes	Session date (YYYY-MM-DD)
	time_slot	string	Yes	Start time (HH:MM, 30-min intervals)
	candidate_name	string	Yes	Full name of the candidate
	candidate_email	string	Yes	Valid email address
	session_type	string	Yes	One of: case_interview, fit_interview, resume_review
	duration_minutes	integer	No	Session length (default: 45)
	notes	string	No	Additional notes

Response (Success - 200)

```

{
  "success": true,
  "booking": {
    "id": "booking-uuid-here",
    "mentor_id": "mentor-123",
    "mentor_name": "John Smith",
    "date": "2026-03-16",
    "time_slot": "10:00",
    "duration_minutes": 45,
    "session_type": "case_interview",
    "candidate_name": "Jane Doe",
    "candidate_email": "jane.doe@example.com",
    "status": "scheduled",
    "created_at": "2026-03-11T10:30:00+00:00"
  }
}

```

Important Notes - Calendar invites are NOT sent automatically. Your platform should send invites to the candidate. - The booking will appear on the mentor's dashboard. - The time slot will be blocked and unavailable for other bookings.

6. List Bookings

Get all bookings made through your partner account.

Request

GET /api/partner/bookings

Query Parameters (all optional) | Parameter | Type | Description | |
| status | string | Filter by status: scheduled, completed, cancelled,
no_show | | mentor_id | string | Filter by specific mentor | | start_date | string | Filter
bookings from this date (YYYY-MM-DD) | | end_date | string | Filter bookings until
this date (YYYY-MM-DD) | | limit | integer | Max results (default: 50, max: 100) | |
skip | integer | Pagination offset |

Example Request

GET /api/partner/bookings?status=scheduled&limit=20

Response

```
{
  "bookings": [
    {
      "id": "booking-uuid",
      "partner_id": "partner-uuid",
      "mentor_id": "mentor-123",
      "mentor_name": "John Smith",
      "date": "2026-03-16",
      "time_slot": "10:00",
      "duration_minutes": 45,
      "session_type": "case_interview",
      "candidate_name": "Jane Doe",
      "candidate_email": "jane.doe@example.com",
      "status": "scheduled",
      "notes": null,
      "created_at": "2026-03-11T10:30:00+00:00",
      "updated_at": "2026-03-11T10:30:00+00:00"
    }
  ],
  "total": 1,
  "limit": 50,
  "skip": 0
}
```

7. Get Booking Details

Get details of a specific booking.

Request

GET /api/partner/bookings/{booking_id}

Response

```
{
  "id": "booking-uuid",
  "partner_id": "partner-uuid",
```

```
"mentor_id": "mentor-123",
"mentor_name": "John Smith",
"date": "2026-03-16",
"time_slot": "10:00",
"duration_minutes": 45,
"session_type": "case_interview",
"candidate_name": "Jane Doe",
"candidate_email": "jane.doe@example.com",
"status": "scheduled",
"notes": null,
"created_at": "2026-03-11T10:30:00+00:00",
"updated_at": "2026-03-11T10:30:00+00:00"
}
```

8. Cancel Booking

Cancel a scheduled booking.

Request

DELETE /api/partner/bookings/{booking_id}
Content-Type: application/json

Request Body (optional)

```
{
  "reason": "Candidate requested cancellation"
}
```

Response

```
{
  "success": true,
  "message": "Booking cancelled successfully",
  "booking_id": "booking-uuid"
}
```

Notes - Only bookings with status scheduled can be cancelled. - Cancellation frees up the time slot for other bookings.

Error Responses

Authentication Errors

401 Unauthorized - Missing API Key

```
{
  "detail": [
```

```
{
  "type": "missing",
  "loc": ["header", "x-partner-api-key"],
  "msg": "Field required"
}
]
```

401 Unauthorized - Invalid API Key

```
{
  "detail": "Invalid or inactive API key"
}
```

Authorization Errors

403 Forbidden - Mentor Not Assigned

```
{
  "detail": "Mentor not assigned to this partner"
}
```

Validation Errors

400 Bad Request - Invalid Date Format

```
{
  "detail": "Invalid date format. Use YYYY-MM-DD"
}
```

400 Bad Request - Invalid Time Slot

```
{
  "detail": "Invalid time_slot format. Use HH:MM (30-min intervals)"
}
```

400 Bad Request - Invalid Session Type

```
{
  "detail": "Invalid session_type. Must be one of: case_interview, fit_interview,
resume_review"
}
```

Conflict Errors

409 Conflict - Slot Unavailable

```
{
  "detail": "Time slot is not available. It may be booked, blocked, or outside
availability."
}
```

Not Found Errors

404 Not Found

```
{  
  "detail": "Mentor not found"  
}
```

Session Types

Type	Description
case_interview	Practice case interview session
fit_interview	Behavioral/fit interview practice
resume_review	Resume review and feedback

Rate Limits

- **No strict rate limits** currently enforced
 - Please implement reasonable request patterns
 - Recommended: Cache mentor list and refresh every 5 minutes
 - Recommended: Don't poll availability more than once per minute
-

Best Practices

1. **Cache mentor data:** Mentor profiles don't change frequently. Cache for 5-10 minutes.
 2. **Check availability before booking:** Always verify the slot is available before attempting to book.
 3. **Handle errors gracefully:** Implement proper error handling for all API calls.
 4. **Use meaningful candidate info:** Provide accurate candidate names and emails for mentor reference.
 5. **Implement retry logic:** For network errors, implement exponential backoff retry.
-

Integration Workflow

1. GET /api/partner/mentors
└─── Display mentor list to user

2. User selects a mentor

- GET /api/partner/mentors/{id}/availability?start_date=...&end_date=...
- Display available slots

3. User selects a time slot

- POST /api/partner/bookings
- Create booking
- Send calendar invite to candidate (your responsibility)

4. Booking management

- GET /api/partner/bookings (list all)
 - DELETE /api/partner/bookings/{id} (cancel if needed)
-

Support

For API support or questions, contact your GradNext partnership manager.

Changelog

Version 1.0.0 (March 2026)

- Initial API release
- Mentor listing and details
- Real-time availability checking
- Booking creation and cancellation
- Booking management endpoints
