

Case Study

Company Intro:

Paytm that means for “pay through mobile is an Indian financial services and digital payments corporation with headquarters in Noida. Vijay Shekhar Sharma, working for One97 Communications, founded it in 2010. Customers can use the company's mobile payment services, and its point of sale, internet payment gateway, and QR code solutions make it possible for businesses to accept payments. In conjunction with financial institutions, Paytm offers financial services such as microloans and buy now, pay later to its consumers and merchants. The business also offers online games, retail brokerage services, and ticketing services in addition to bill payments and money transfers.

Current Scenario:

We offer a comprehensive suite of payments services to acquire consumers and merchants, as well as leverage our two-sided, consumer and merchant ecosystem and rich insights from our platform to cross-sell high-margin financial services and merchant services (commerce and cloud).

Now the company is looking for new business growth opportunities. After the launch of its IPO, Paytm has observed a lot of hiccups in its revenue streams, and overall business growth. Considering the upcoming recession forecast, the company wants to have a sustainable business model that has minimum impact of recession in Indian market.

The UPI space is already red-ocean but the company feels with the introduction of new products like Sound Box Payment recognition device may change the game, and there is an opportunity to tap the market even more despite the current situation of the Paytm.

The company is keen to looking to enter the market with diverse offerings to attract the more varieties of the customers on its platform.

Case Problem:

1. How Paytm mall could be a game changer for Paytm? Prepare a market Penetration & do a detailed cost analysis, revenue analysis of the recommended strategies
2. Suggest few changes in the current market penetration strategies of Paytm mall which might help Paytm in terms of improving its market Positioning
3. Create a user persona for Paytm Mall & highlight areas where marketing & other brand building approaches could influence the consumer behavior of the user persona to increase the platform interaction
4. After the RBI Ban on the platform, suggest new promising products/services which Paytm can launch to avoid declining revenue of the company & can sustain revenue stream within the competitive market. Provide your rationale on the recommended products/services
